The public hearing published June 12, 2026 in the Republican American, Application #2661, 69 West St LLC, 69 West St, to install 8 exterior cameras and install fence around property, convened at 7:09 pm. The Commission reviewed the application with Rabbi Eisenbach, in person and Diti Glazer, CEO Horizon Security Systems/10X Construction by speaker phone. An updated application and pictures were reviewed. It was confirmed that the 4" x 4" cameras will be located under the eaves of the building. The proposed fencing is metal and wood clad with 6ft tall privacy panels. The footprint of the proposed fence starts at the front corners of the building and extends parallel to West St going east and west respectively, then turns 90 degrees and continues south on both sides of the property, and then joins across the back of the property with a continuation of the fence. The Commission explained that the wood clad the applicant presented is customarily used in the back of a structure for privacy and asked if they would consider a picket fence style which would be more in keeping with the Historic District. The applicant stated the aluminum gate will also be wood clad and will track left to right. Diti Glazer commented that they have not chosen a manufacturer yet and cannot provide
